polycarboxylate polyoxyethylene ether HPEG2400

polycarboxylate polyoxyethylene ether HPEG2400 has good water solubility and high double bond retention rate. When polymerized into a water reducing agent, the dosage is low and the water reducing rate is high. It has the advantages of good enhancement effect, good durability, no corrosion enhancement, and environmental protection.

application

polycarboxylate polyoxyethylene ether HPEG2400 Mainly used in the manufacture of high-performance polycarboxylate water reducer.

Product properties

Item Code	HPEG
Appearance (25±1℃)	White or light yellow flaky solid
pH Value (1% water solution)	5.0-7.0
Unsaturation mmol/g	≥ 0.38
Moisture %	0.2 max.
Hydroxyl Value mg KOH/g	23.5±2.0
Double Bond Retention %	≥96
